

Gregor Žerjav – Short CV

Dr. Gregor Žerjav is working as research assistant professor at the National Institute of Chemistry in Ljubljana, Slovenia, in the Laboratory for Environmental Sciences and Engineering. He obtained his Ph.D. degree from the University of Maribor in 2015. He was a visiting scientist at the Chalmers University of Technology in Göteborg, Sweden. His research interests are in the fields of heterogeneous catalysis, photocatalysis, visible-light-driven photocatalysts, photocatalysis for water purification, preparation and characterization of catalysts and materials, photocatalysts based on TiO_2 , and water treatment by advanced oxidation processes.
